**To:** To whom it may concern

Dear Sirs,

We hereby confirm that in period between October 2009 to September 2010, KAEFER SA carried out thermal insulation works on Whitegate IPP Project in Whitegate, Co. Cork, Ireland.

The scope of works included the following;

- insulation and cladding on tanks, ducts and vessels,
- insulation and cladding works on various pipelines and skids,
- pre-forming and installing of insulation cladding

Overall scope for these works exceeded 15,000.00 square meters of insulation in total.

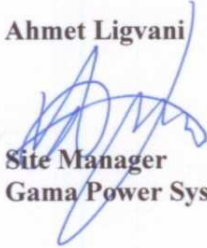

The works were executed in accordance with the relevant technical documentation, purchaser requirements and to the best workmanship. Throughout the execution of the works, we noted that insulation works were carried out on a timely and safe manner.

It is worth mentioning that KAEFER SA has maintained highest standard of Health & Safety throughout the execution of the works which is also supported by achieved approximately 58,000.00 man-hours in total without having any reportable accident.

We can recommend KAEFER SA to any future contractor for their highly qualified staff, flexibility, safe and high quality workmanship.

Yours sincerely,

**Ahmet Ligvani**
